National Defense Strategy

Decisive Decade – PRC Strategic Competition & Russia Acute Threat

Defense priorities:

1. Defending the homeland, paced to the growing multi-domain threat posed by the PRC
2. Deterring strategic attacks against the United States, Allies, and partners
3. Deterring aggression, while being prepared to prevail in conflict when necessary, prioritizing the PRC challenge in the Indo-Pacific, then the Russia challenge in Europe
4. Building a resilient Joint Force and defense ecosystem.

"As our central governing concept, the top priority of the Department of the Navy will be to develop concepts of operations and capabilities that bolster deterrence and expand our warfighting advantages vis-a-vis the People's Republic of China."

– SECNAV Del Toro, October 2021

"First, master warfighting in your Service. Deterrence depends on being your adversary's worst nightmare in a fight."

– GEN Brown, CJCS, October 2023

"We must exercise strategic discipline and remain committed to the long term ... because the work done in our shipyards, manufacturing facilities, and bases ... by the most skilled and talented workers in the world ... is critical to our foundation of readiness generation ... and is essential to our Nation."

."

Big “A”

How we approach “Acquisition” Strategy

NAVFAC SE Acquisition Strategy

Projects Decision Lens Layers

Which NAVFAC Team will be assigned the Work? (Core, ASG, Field Office)

Design-Build or Design-Bid Build?

What is the Design/Scope of Work Strategy? (i.e. – In-House or A&E)

What is the Acquisition Strategy, and specific tool / or approach?

Do we need specialty acquisition methods, like ECI and award fee?

NAVFAC SE Acquisition Strategy - Construction

- **Multiple Award Construction Contract (MACC) task order is generally preferred method**
 - Prequalified contractors and provides us more speed than stand alone
 - Competitive award - orders competed among MACC awardees
- **Stand-alone contracts used when determined appropriate, based on a variety of factors**

Our General Decision Lens

NAVFAC SE Acquisition Strategy - Facilities Services

- Strategy heavily influenced by market research results - small businesses meets the majority of requirements

* - Denotes annual contract amount, not full contract award

NAVFAC SE Acquisition Strategy A-E/EV

- **AE/EV-IDIQ task order standard means of execution**
 - Most highly-qualified contractor, determined competitively by slate and select
 - Faster and more efficient than full and open competition
 - Competitive award, non-competitive orders

<\$60M

**IDIQ from competitive
slate and select process**

<\$30M

**IDIQ from a
competitive
slate and
select process
mostly Small
Business**

Unplanned & Or Larger than we can handle

Comparison of the DoD CAP/MACs

(Slide from JETC 2023)

- LOGCAP may only perform construction and purchase commodities that are incidental to Base Support Services; Contracts can be FFP, CPFF
 - Task Order are typically Cost Plus Fixed Fee
- AFCAP has the ability to award stand alone task orders for Construction and Commodities (not incidental to BOS); Contracts can be FFP, CPFF, CPAF, CPIF
 - Task Orders are typically Firm-Fixed Price with some Cost Plus Fixed Fee
- GCSMAC focus is on short term / transitional BOS work; Contracts can be cost plus and Fixed Price Variations
 - NAVFAC Pacific tends toward CPAF task orders
- GCCMAC usually supports storm/disaster recovery at Navy and Marine Corp bases or urgently needed MILCON projects ; task orders can be FFP or CPAF
 - NAVFAC Atlantic tends toward FFP task orders

Comparison of the DoD CAP/MACs (Slide from JETC 2023)

- LOGCAP may only perform construction and purchase commodities that are incidental to Base Support Services; Contracts can be FFP, CPFF
 - Task Order are typically Cost Plus Fixed Fee
- AFCAP has the ability to award stand alone task orders for Construction and Commodities (not incidental to BOS); Contracts can be FFP, CPFF, CPAF, CPIF
 - Task Orders are typically Firm-Fixed Price with some Cost Plus Fixed Fee
- GCSMAC focus is on short term / transitional BOS work; Contracts can be cost plus and Fixed Price Variations
 - NAVFAC Pacific tends toward CPAF task orders
- GCCMAC usually supports storm/disaster recovery at Navy and Marine Corp bases or urgently needed MILCON projects ; task orders can be FFP or CPAF
 - NAVFAC Atlantic tends toward FFP task orders

IT/Cyber Highlights

- **Cybersecurity Maturity Model Certification (CMMC)**

- Cybersecurity Maturity Model Certification (CMMC) program is aligned to DoD's information security requirements for DIB partners. It is designed to enforce protection of sensitive unclassified information that is shared by the Department with its contractors and subcontractors.
 - Tiered Model: CMMC requires that companies entrusted with national security information implement cybersecurity standards at progressively advanced levels, depending on the type and sensitivity of the information. The program also sets forward the process for requiring protection of information that is flowed down to subcontractors.
 - Assessment Requirement: CMMC assessments allow the Department to verify the implementation of clear cybersecurity standards.
 - Implementation through Contracts: Once CMMC is fully implemented, certain DoD contractors that handle sensitive unclassified DoD information will be required to achieve a particular CMMC level as a condition of contract award.

- **RMF/NIST Control Requirements for Contracts**

- Identifying a subset of the controls needed for the RMF process

- **Defining Cybersecurity Contract Language**

The CMMC 1.0 vs 2.0 Model

Model 2 simplifies the CMMC standard for companies, while safeguarding critical Department of Defense information

What is the difference between NIST SP 800-171 compliance and CMMC?

CMMC – is **designed to enforce** protection of sensitive unclassified information that is shared by the Department of Defense with its contractors and subcontractors. Requirements are based on NIST SP 800-171 guidelines.

NIST SP 800-171 - provides recommended security requirements for protecting the confidentiality of sensitive unclassified information residing in a nonfederal system and organization.

The major differences between these are:

- CMMC compliance does **not** necessarily mean NIST SP 800-171 compliance
- CMMC Level 1 is the lowest level of certification
- CMMC Level 2 & 3 requires application of NIST SP800-171 and associated NIST SP800-172 controls

CMMC 2.0 LEVEL	CONTROL COUNT	CERTIFICATION PATH
LEVEL 3 <i>EXPERT</i> "SPECIAL CUI"	≤ 206 CONTROLS <i>110 CUI + 61 NFO controls from NIST SP 800-171 & ≤ 35 controls from NIST SP 800-172</i>	HIGH PRIORITY ACQUISITIONS: DoD-staffed (DIBCAC) assessment every 3 years
LEVEL 2 <i>ADVANCED</i> "REGULAR CUI"	171 CONTROLS <i>110 CUI + 61 NFO controls from NIST SP 800-171</i>	PRIORITIZED ACQUISITIONS: CMMC-AB approved C3PAO assessment every 3 years
		NON-PRIORITIZED ACQUISITIONS: Annual self-assessment (OSC conducted)
LEVEL 1 <i>FOUNDATIONAL</i> FCI	17 CONTROLS <i>based on 15 basic cybersecurity controls from FAR 52.204-21</i>	ANNUAL SELF-ASSESSMENT

CMMC FAQs

What is the relationship between National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171 and CMMC?

Compliance with NIST standards are levied as contractual requirements via inclusion of clauses such as FAR 52.204-21 and DFARS 252.204-7012. The relationship between CMMC and the NIST standards is that CMMC requirements will result in a contractor self-assessment, or a third-party assessment, to determine whether the applicable NIST standard (as identified by the DFARS clause) has been met. The FAR clause states the basic safeguarding requirements for CMMC Level 1 compliance. Under CMMC 2.0, a Level 2 assessment will be conducted against the NIST SP 800-171 standard and a Level 3 assessment will be based on a subset of NIST SP 800-172 requirements.

Will prime contractors and subcontractors be required to maintain the same CMMC level?

If contractors and subcontractors are handling the same type of FCI and CUI, then the same CMMC level will apply. In cases where the prime only flows down select information, a lower CMMC level may apply to the subcontractor.

Would it be safe to say that customer data is CUI and administrative data is FCI?

The definition of FCI is in FAR 52.204-21 and CUI in 32 CFR Part 2002, respectively. The DoD CUI Quick Reference Guide, located at <https://www.dodcui.mil>, includes information on CUI. In addition, the Defense Counterintelligence and Security Agency (DCSA) provides answers to Frequently Asked Questions at: <https://www.dcsa.mil/Portals/91/Documents/CTP/CUI/21-10-13%20CUI%20FAQ%20FINAL.pdf>. These FAQs describe the difference between FCI and CUI as follows: “Both CUI and FCI include information created or collected by or for the Government, as well as information received from the Government. However, while FCI is any information that is ‘not intended for public release,’ CUI is information that requires safeguarding and may also be subject to dissemination controls.”
